PROJECTS

Aarvis — *https://aarvis.herokuapp.com*

I create it in JavaScript, HTML and Css. It listens to me and answers my questions. It is basically used when I need to search something on Google or YouTube. Then simply I told it.

Live Weather —*https://livetempreture.herokuapp.com/*

It is my weather website. It tells us live-temperature of any city in the world. It is a node js Application. And I use an API for live-temperature.

First Mern App —*https://myfirstmernweb.herokuapp.com/*

It is my first Mern App. It was created on MERN Stack. In this website, we can simply perform login and logout operations.

EXTRA ACTIVITES

➢ Participate in **Deepotsav Ayodhya** as a Volunteer**,** in which my University made world record every year.
➢ Participate in Cultural Programs in my college.
➢ Participate as a volunteer in a science fest held in my college.
